SCANTOOL
PROUD MANUFACTURER SINCE 1980

Floor belt grinder for industry

 # 430232133

Floor grinders & Weld bead grinders (off shore) - SCANTOOL 75FGS

SCANTOOL 75FGS differs from the Model 75FG by featuring a spring system at the front contact wheel and the ability to be adjusted up to 30 degrees. The spring system makes the machine both safer and easier to operate, as it automatically lifts away from the workpiece if the operator does not press the sanding belt against it. In addition, the spring system makes the machine easier to move around for various grinding tasks.

SCANTOOL 75FGS floor belt grinders are the ideal grinders for large and heavy items that cannot be lifted/moved to the grinder. Used, among others in shipyards and in the wind mill industry for grinding of welds in floor height.

With SCANTOOL floor belt grinders the operator can stand up and grind in floor level. Operating handle is height adjustable and can customize any person. The pressure from the floor belt grinders are also adjustable and at the same time it is possible to

adjust the belt grinding surface, so you can always use the full width of the grinding belt, although the floor is uneven.

Product Specification

Voltage	3x400v - 50Hz
Rpm	2880
Motor (HP)	5,5
Wheel size, Drive wheel (ø mm)	200x75x28
Wheel size, Contact wheel (ø mm)	200x75x20
Grinder Belt (mm)	75x2000
Number of spindle speeds	1
Length (mm)	2000
Width (mm)	710
Height (mm)	1000
Net weight (kg)	85
